

WHAT ABOUT THE BOYS FOUNDATION

Documentary Source Bibliography

Sexual Abuse Involving Boys & Institutional Accountability

PUBLIC RECORDS / COURT PROCEEDINGS / OFFICIAL INQUIRIES / PUBLISHED SOURCES

A case-indexed collection of public documentation concerning reported sexual abuse involving boys, institutions responsible for children, and the legal proceedings and official inquiries arising from alleged or established misconduct.

OCTOBER 2026

ABOUT THIS BIBLIOGRAPHY

Each entry identifies the originating agency or publication, the document title, an available publication date, and a direct source URL. Documents from courts and investigative authorities are presented alongside published reporting, with source types designated for ease of review. A criminal charge, unresolved allegation, civil pleading, and adjudicated finding retain distinct evidentiary meanings.

The bibliography is organized to distinguish United States boy-victim case documentation from nationwide institutional sources and additional research relating to other populations. An entry documents a citable publication; it should not be counted as a unique victim or incident. Repeated addresses are consolidated within the reference guide where practicable.

COUNTING NOTE

The circulated U.S. graphic states 1,286 mapped cases, while its displayed category totals add to 1,486. A case-by-case location dataset reconciling those totals was not present among the source registers reviewed. The citations below document the cases, investigations and institutions identified by their originating records; they should not be taken as an independent verification of the graphic's national total.

CONTENTS

I. U.S. case documentation.....	3
Court records, agency releases and public reporting associated with investigations involving boys or male minors.	
II. National investigations and published data.....	17
Federal findings and nationwide reporting are collected separately from individual cases.	
III. International and comparative inquiries.....	18
Historical and international records are maintained distinctly from United States case references.	
IV. Additional reference material.....	26
Supporting records, comparative reports and materials outside the case-indexed set.	
V. Institutional accountability records.....	29
University personnel, institutional governance and clinical proceedings. This section includes mixed-age and mixed-sex populations.	
VI. Student and campus proceedings.....	40
Published campus and legal material involving student allegations and institutional responses. Many entries do not involve boys.	
VII. Historical juvenile-institution documentation.....	47
Court proceedings, historical field research and original-source references concerning juvenile institutions. Deaths and burials are not treated as evidence of sexual assault.	
Source-specific criminal and civil statuses should be assessed from the linked record. References to international investigations and mixed-population institutional cases are included for comparison and do not establish a location on the United States map.	

PART I

U.S. case documentation

Court records, agency releases and public reporting associated with investigations involving boys or male minors.

Agape Boarding School
